FMI CAPITAL PTE LTD

## PHASE -1

# LAUNCH FMI WALLET

**FMI Wallet Launching in DeFi Network:** FMI Wallet is a decentralized finance (DeFi) platform that provides users with a digital wallet interface for managing cryptocurrencies and participating in various DeFi protocols. It facilitates seamless transactions, asset management, and yield farming within the DeFi ecosystem.

# LAUNCH FMI EXCHANGE - EARLY ACCESS

**Launching FMI Exchange - Early Access:** This initiative allows users to register on our website and undergo the Know Your Customer (KYC) process ahead of the official launch. During this phase, users can secure early access to the FMI Exchange platform, which will provide them with the opportunity to be among the first to experience and utilize its features once fully operational. Early access registration and KYC verification enable users to prepare and familiarize themselves with the exchange's interface and functionalities in advance, ensuring a seamless transition to trading and engaging with digital assets upon the official launch.

FMI CAPITAL PTE LTD

PHASE -2

# LAUNCH FULL-FLEDGED FMI EXCHANGE WITH FMI DEBIT CARD

## Launching the Full-Fledged FMI Exchange with FMI Debit Card

**Integration:** This marks the official release of the comprehensive FMI Exchange platform, equipped with advanced trading features, liquidity pools, and user-friendly interfaces. In addition to facilitating seamless cryptocurrency trading, the FMI Exchange now offers integration with the FMI Debit Card, providing users with a convenient way to spend their digital assets in the real world. With the FMI Debit Card, users can easily convert their cryptocurrencies into fiat currencies and use them for everyday purchases, further bridging the gap between traditional finance and the digital economy. This launch signifies a significant milestone in the FMI ecosystem, empowering users to efficiently manage and utilize their digital assets across multiple channels.

FMI CAPITAL PTE LTD

## PHASE -2 (1)

# LAUNCH FMI BLOCKCHAIN

**Launching FMI Blockchain:** Designed for lightning-fast transactions and optimized for merchant payment ecosystems, FMI Blockchain introduces a groundbreaking solution to the world of digital transactions. With its innovative architecture and streamlined protocols, FMI Blockchain offers unprecedented speed and usability, revolutionizing the way merchants process payments and interact with cryptocurrencies. This cutting-edge blockchain technology not only enhances transaction efficiency but also ensures seamless integration with existing merchant systems, paving the way for widespread adoption and utilization. FMI Blockchain represents a transformative leap forward in the realm of digital finance, empowering merchants and users alike with unparalleled speed, security, and usability in their payment experiences.

FMI CAPITAL PTE LTD

## PHASE -3

# LAUNCH FMI MERCHANT PAYMENT SYSTEM

Launching the FMI Merchant Payment System: Our innovative platform enables merchants of all sizes, including brand owners, small establishments, and ecommerce brands, to seamlessly accept both cryptocurrency payments and FMI Coin payments. Through our system, merchants can easily register and integrate with us, gaining access to a range of payment options tailored to their needs.

In-shop transactions are made effortless with QR code scanning or swipe machine integration, allowing customers to pay using cryptocurrencies or FMI Coin directly at the point of sale. For online transactions, merchants can generate payment links, enabling customers to make secure payments through our platform.

FMI CAPITAL PTE LTD

## PHASE -4

# LAUNCH FMI ECO SYSTEM IN 16+COUNTRIES

Launching the FMI Ecosystem in 16+ Countries: This marks the expansion of the FMI ecosystem into multiple countries, bringing our innovative blockchain solutions and financial services to new regions around the globe. Through strategic partnerships and collaborations, FMI will establish a presence in these countries, offering a comprehensive suite of products and services tailored to meet the unique needs of each market.

The FMI ecosystem will provide individuals and businesses in these countries with access to decentralized finance (DeFi) solutions, cryptocurrency trading platforms, merchant payment systems, and more. By expanding into diverse geographical regions, FMI aims to promote financial inclusion, drive economic growth, and foster innovation in the emerging digital economy.
